Training

- **EM 125 - Exercise Programs: An Introduction**
- **Description**
- This introductory self-study program will provide you with the basic concepts of exercise program management, including key terms and an overview of the exercise design process. Upon successful completion, you will be able to actively participate as a member of an exercise design team or program committee member.
- **Course Material**
- [EM 125 - Exercise Programs: An Introduction](#)
- [EM 125 - Exercise Programs: An Introduction \[PDF version\]](#)
- **How to complete this course**
- Request course material
- Take the exam online by enrolling into the course
- You can close the exam and return to it at a later time
- Prior to submitting your exam you have the option of reviewing your answers

Training

- **EM 131 - Accessible Customer Service for Emergency Responders**
- **Description**
- This self-directed e-learning course has been produced in partnership with the Accessibility Directorate of Ontario (ADO). It will provide emergency responders with information to better assist people with disabilities and special needs. The course will also provide participants with an understanding of the Accessibility Standards for Customer Service.

Training

- **EM 200 - Basic Emergency Management (BEM)**
- **Description**
- This course provides an overview of emergency management in Ontario including the systems and processes for preventing, mitigating, preparing for, responding to, and recovering from emergencies and disasters. You will learn about the key provisions of the Emergency Management and Civil Protection Act. You will also have the opportunity to identify the roles and responsibilities of various levels of government and other key organizations involved in emergency management.

Training

- **EM 225 - Exercise Program Management**

- **Description**

- This instructor led course builds on the concepts presented in the EM 125. It prepares you to design, develop, conduct, control, evaluate, and implement post exercise requirements for a discussion-based exercise, specifically a Tabletop Exercise. The course is comprised of classroom sessions and practical activities. You will also have the opportunity to design and participate in a simulated exercise.

- **Pre-requisites**

- **One Of the following Course(s)**

- EM 200** - Basic Emergency Management (BEM)

- **EM 202** - Basic Emergency Management for First Nations (BEM FN)

- **EM 900** - Basic Emergency Management Instructor (BEM INSTR)

-

- And One Of the following Course(s)**

- EM 125** - Exercise Programs: An Introduction

Training

- **EM 240 - Note Taking**

- **Description**

- This course will provide emergency management professionals with knowledge on the best practices of note taking.

- **Target audience**

- Municipal and Provincial Emergency Management Coordinators
- Members of emergency management program committees
- Personnel responsible for emergency programs within their organizations (For example: Emergency Services, Private Sector, Non-Government Organizations, etc.)

Training

- **IMS 100 - Introduction to Incident Management System**
- **Description**
- This introductory course will prepare you to work within the Incident Management System in Ontario. This course is designed to teach you the basic functions, concepts and principles of the Incident Management System (IMS). At the end of this course you will be aware of the major functions within IMS, and be able to assume limited roles within an incident management team for simple incidents.
- This course is currently available in three different formats
- **Self Study**
- This version of the course includes a downloadable reading package, supported by an online exam. [IMS-100 course reading package \[PDF version\]](#)
- [Enrol to take the exam](#)
- **E-Learning**
- Our newest interactive version includes videos, quizzes, closed captioning and narration. [Enrol into the e-learning version](#)
- **Classroom**
- This version is taught by provincially qualified instructors and offered at the jurisdictional or organizational level.

Training

- **IMS 200 - Basic Incident Management System**
- **Description**
- This course is designed for individuals potentially involved in implementing IMS at simple incidents or during the early phases of a complex incident. Participants will solidify their knowledge of core principles and concepts of Incident Management functions and organizations. This course will provide opportunities to learn how to command a simple incident and will receive an introduction to incident action plan. Participants will familiarize themselves with incident facilities, resource management and the management of communication.
- **Pre-requisites**
- **One Of the following Course(s)**
IMS 100 - Introduction to Incident Management System (self-study) - Completed

Training

- **IMS 250 - IMS in EOCs**

- **Description**

- This course prepares participants to implement IMS (Incident Management System) and perform specific IMS functions, within an EOC (Emergency Operations Centre).

- **Pre-requisites**

- **One Of the following Course(s)**

- IMS 200** - Basic Incident Management System

- **IMS OFC CO506** - IMS 100 & IMS 200 Equivalent
