

Communities helping communities

Across Ontario, communities are sharing lessons learned, best practices, and expertise.

[Langs](#) in Cambridge has had close to 50 cities representing over 100 different groups visit their hub. As a response to requests from across Ontario, Langs hosted a community hub learning event to share information about how the Langs hub was established. Highlights included information about securing land and financing, managing a construction project, and using community engagement in the tenant selection process.

The [United Way Toronto & York Region](#) has participated extensively in efforts to promote community hubs, including providing an information session for the Community Hubs Framework Advisory Group, participating in the ChangeLab, and reaching out to others to offer its advice and expertise on how to create and sustain a community hub.

The [Peterborough Poverty Reduction Network](#) hosted Peterborough Community Hub Day at The Mount Community Centre. The event brought together local agencies, groups, and government representatives to share information and celebrate local success stories.

The [Common Roof](#) in Barrie is a community-based social enterprise providing sustainable and professional work space for human-service non-profit agencies. The Common Roof regularly hosts events and education seminars in its community hub to improve capacity and collaboration between its various non-profit partners.
